

## BLANKE DIBA

Approved by the (German) building inspectorate, the BLANKE DIBA waterproofing system fulfills the requirements. Fleece laminated on both sides the waterproofing membrane is a waterproofing material in sheet form for use in conjunction with tiles and slabs. The waterproofing membrane is suitable for waterproofing indoor rooms; there are appropriately harmonized waterproofing tapes, waterproofing collars and a diverse range of moulded parts available to supplement the waterproofing system. BLANKE DIBA-COLL sealant is available for butt joints and is a successfully tested system component. It is also possible to use BLANKE DIBA in outdoor areas according to the suitability of the material properties.

### Important notes:

BLANKE DIBA satisfies the requirements of the waterproofing standard DIN 18534-5!

Including test report

issued by MFPA Leipzig

With building authority certificate

### Advantages:

- > Excellent tried-and-trusted waterproofing membrane for composite sealing with ceramic surfaces
- > Tiling work can be carried out without long waiting periods
- > Long-term waterproofing even for butt joints
- > The layer thickness is retained in every situation
- > Has a crack bridging effect

### Expert tip:

For efficient and watertight adhesion use BLANKE DIBA-COLL universal sealant and adhesive and BLANKE DIBA-COLL ZSD (see page 187)!

### 1. BLANKE DIBA WATERPROOFING MEMBRANE

Length: 5.0 m

PU: 1 roll

b=cm	Art. no.	€/m <sup>2</sup>
100.0	537-900-10005	16.79

**Important note:**

BLANKE DIBA 10 SK is suitable only for interior areas. However, BLANKE DIBA 15 SK is suitable for interior and exterior areas.

**BLANKE DIBA COMPONENTS**

**BLANKE DIBA components:**

- 1 BLANKE DIBA waterproofing membrane
- 2 BLANKE DIBA DB flexible waterproofing membrane
- 3 BLANKE DIBA CORN-A outer corner
- 4 BLANKE DIBA CORN-I inner corner
- 5 BLANKE DIBA BM floor collar
- 6 BLANKE DIBA WM wall collar
- 7 BLANKE BC Fitting clip
- 8 BLANKE DIBA WB bathtub waterproofing membrane
- 9 BLANKE SOUND INSULATION TAPE
- 10 BLANKE DIBA-KEIL
- 11 BLANKE DIBA RKM
- 12 BLANKE DIBA-COLL
- 13 BLANKE DIBA-COLL ZSD
- 14 BLANKE DIBA SK

**Important notes:**

BLANKE DIBA BM is flexible to use, because the opening is cut to suit individual requirements. For more information, please take a look at our latest technical information leaflets.

For the suitable BLANKE DIBA drainage-systems refer to page 120 onwards.
