

BLANKE DIBA-CUBE

The elegant BLANKE DIBA-CUBE point drainage system is suitable for installation heights between 90–54 mm (plus covering) thanks to drainage housing that can be shortened, and is thus ideal for floor-level showers. Featuring a rubber seal with factory-fitted self-adhesive sealing fleece and height-adjustable frame (5–15 mm), BLANKE DIBA-CUBE also has an integrated second drainage level. With an adjustable siphon for a seal water height up to max. 50 mm incl. design cover. Drain capacity of 30 l/min.
