

BLANKE SMART HOME SOLUTIONS

Smart home is the market of the future: 88.2% of all German households are connected to the Internet; however, only about 15% currently use smart home applications. Smart home not only means better living conditions and convenience, but also a high potential for saving energy in your home. Controlling heating, security*, lighting* or shading* quickly and simply – smart home technology offers you a convenient and simple way to control different applications that accompany you throughout your everyday life. The Blanke system is easy to install and – thanks to its modular expandability – introduces you to the world of smart homes via a flexible and uncomplicated way.

Expert tip:

BLANKE SMART HOME solutions can be used with all PERMATOP underfloor heating and cooling systems.

* Important note:

Security, light and shading accessories are optional and can be purchased from HomeMatic.
